E-Z STRIPES™

Roadway Striping System

E-Z STRIPES™ consist of properly spaced scale stripes adhered to a flexible, transparent carrier strip. in place, burnished removed. E-Z STRIPES™ adhesive and will adhere surface. Like decals, obtained when they are finish. Latex house should be avoided since release agents to make these agents interfere the stripes. After the stripes are positioned and burnished in place, we recommend over-coating with a flat clear finish such as Testors Dullcote™ to seal the stripes to the surface and knock off any unrealistic shine.
